Subject: FW: Public records request

Hello,

Below is a public records request. I've spoken with Mr. Devereaux about point number 7 and while he is primarily focused on human remains found in the Ajo area, he also would like to be able to compare those numbers to the rest of Pima County. These would include calls where "human remains" or something similar are part of the narrative or call text. He would also like the numbers and not the individual case reports for these types of incidents.

Thank you,

Deputy Cody Gress
